## CB27 | ARIA | *Carlo Bartoli*

material: brass and Murano glass

Satin nickel/Blue

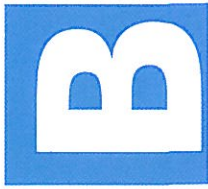

Satin nickel/Fumè

Limited quantities

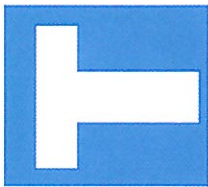

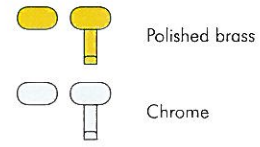

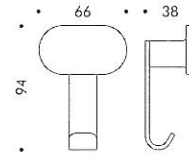

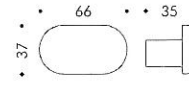

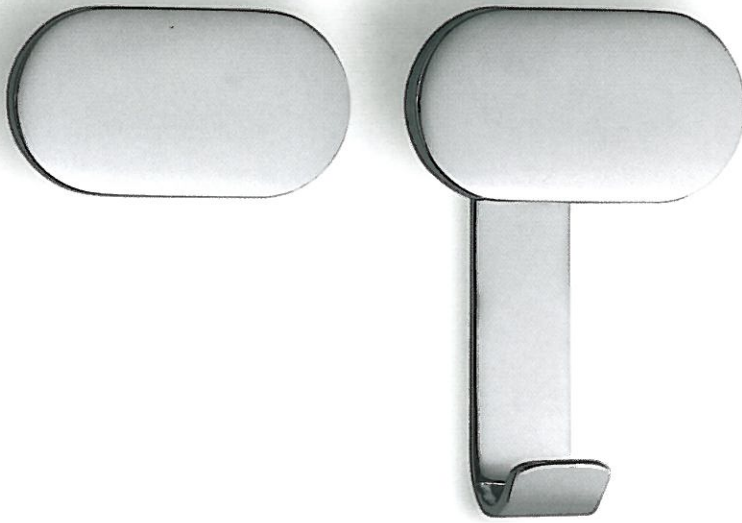

*This glass is hand made according to the school and the secular tradition of Murano's artisans. Tonal variations, fortitious airbubbles originating during the mixing up to different colours and even just discernible differences of the multiples density, must not be considered as mere faults of our products. On the contrary they are peculiar characteristics of our masters entirely artisanal processing to the achievement of our best results.*
